Online Safety Policy

Approved by Governors on: 7 November 2017

Review Committee: Governors' Student Support Committee

Review: Annually

Online Safety Policy

Mission Statement

"*Love one another as I have loved you" (John, 15)*

We believe that Jesus Christ and his Gospel Call – to love God and all people – are at the heart of what we do.

He inspires us, as children of God, to uphold the dignity of each individual.

We strive to develop a community in Christ which fully supports all in achieving their potential – spiritually, academically and personally.

Development of this Policy

This Online Safety policy has been developed by a working group made up of the following:

- SLT
- Online Safety Officer
- Staff – including Teachers, Support Staff, Technical staff
- Governors

Consultation with the whole school community has taken place through a range of formal and informal meetings.

Schedule for Development / Monitoring / Review

This Online Safety Policy was approved by the Governing Body / Governors Sub Committee on:	*Insert date*
The implementation of this Online Safety policy will be monitored by the:	*Safeguarding Officers*
Monitoring will take place at regular intervals:	*Annually*
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to online safety or incidents that have taken place. The next anticipated review date will be:	*Autumn Term 2018*
Should serious online safety incidents take place, the following external persons / agencies should be informed:	*LA Safeguarding Officer, Police*

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Monitoring logs of internet activity (including sites visited) / filtering
- Internal monitoring data for network activity
- Feedback from
    - students
    - parents / carers
    - staff

Scope of the Policy

This policy applies to all members of the *school* community (including staff, students, volunteers, parents / carers, visitors, community users) who have access to and are users of school ICT systems, both in and out of the *school.*

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of students when they are off the *school* site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of cyber-bullying or other online safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data.

The school will deal with such incidents within this policy and associated Behaviour and Anti-bullying Policies and will, where known, inform parents / carers of incidents of inappropriate Online Safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the school.

Governors:

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about online safety incidents and monitoring reports. A member of the Governing Body has taken on the role of Online Safety Governor. The role of the Online Safety Governor will include:

- regular meetings with the Online Safety Co-ordinator / Officer
- regular monitoring of online safety incident logs
- regular monitoring of filtering / change control logs
- reporting to the Governing Body

Headteacher and Senior Leaders:

- The Headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety will be delegated to the Online Safety Officer.
- The Headteacher and (at least) another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on dealing with online safety incidents – included in the incident section).
- The Headteacher & Senior Leaders are responsible for ensuring that the Online Safety Coordinator / Officer and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.

- The Headteacher & Senior Leaders will ensure that there is a system in place to allow for monitoring and support of those in school who carry out the internal online safety monitoring role. This is to provide a safety net and also support to those colleagues who take on important monitoring roles.

Online Safety Officer:

The Headteacher is the nominated person who:

- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies / documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with school technical staff
- receives reports of online safety incidents and creates a log of incidents to inform future online safety developments, meets regularly with Online Safety Governor to discuss current issues, review incident logs and filtering / change control logs
- attends Governors' meetings

Network Manager / Technical staff:

The Network Manager / Technical Staff is responsible for ensuring:

- that the school's technical infrastructure is secure and is not open to misuse or malicious attack
- that the school meets required online safety technical requirements.
- that users may only access the networks and devices through a properly enforced password protection policy.
- the filtering policy, is applied and updated on a regular basis and that its implementation is not the sole responsibility of any single person.
- that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- that the use of the network / internet / learning platform / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the Headteacher, Senior Leaders, Online Safety Coordinator / Safeguarding Officers for investigation / action / sanction
- that monitoring software / systems are implemented and updated as agreed in school policies

Teaching and Support Staff:

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current school Online Safety Policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy
- they report any suspected misuse or problem to the Headteacher, Online Safety Coordinator, Network Manager or Safeguarding Officer for investigation / action / sanction
- all digital communications with students / parents / carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- students understand and follow the Online Safety Policy and acceptable use policies
- students have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned students should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Safeguarding Team:

Should be trained in Online Safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

Students:

- are responsible for using the *school* digital technology systems in accordance with the Student Acceptable Use Policy
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so

- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the *school's* Online Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers:

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website / learning platform and information about national / local online safety campaigns / literature. Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website / learning platform and on-line student / pupil records
- their children's personal devices in the school (where this is allowed)

Community Users:

Community Users who access school systems / website / learning platform as part of the wider school provision will be expected to sign a Community User AUP before being provided with access to school systems.

Policy Statements

Good Practice

Christ the King encourages a "Think before You Click" policy. Students and staff should ask themselves three questions before they click:

- Is the information likely to be accurate?
- Can I be sure online people or friends are who they say they are?
- Would I do this if my parents/carers or another person was with me?

Think Before You Type

Christ the King employs a "Think before You Type" policy. Students and staff should ask themselves three questions before they type:

- Would I want this information to be directed at me?
- Can I be sure that I will not face repercussions for this statement?
- Would I do this if my parents/carers or another person was with me?

Education & Training

Education – Students

Whilst regulation and technical solutions are very important, their use must be balanced by educating students to take a responsible approach. The education of students in online safety is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety programme should be provided as part of ICT/Computing curriculum.
- Key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial / pastoral activities
- Students should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Students should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Students should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.
- Students should be helped to understand the need for the student Acceptable Use Policy and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies the internet and mobile devices
- In lessons where internet use is pre-planned, it is best practice that students should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where students are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or

other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – Parents / Carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters, web site, Learning Platform
- Parents / Carers evenings / sessions
- High profile events / campaigns e.g. Safer Internet Day
- Reference to the relevant web sites / publications e.g. swgfl.org.uk www.saferinternet.org.uk/ http://www.childnet.com/parents-and-carers (see appendix for further links / resources)

Education & Training – Staff / Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school Online Safety Policy and Acceptable Use Agreements.
- It is expected that some staff will identify online safety as a training need within the performance management process.
- The Online Safety Officer (or other nominated person) will receive regular updates through attendance at external training events (eg from LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This Online Safety Policy and its updates will be presented to and discussed by staff in staff / team meetings / INSET days.
- The Online Safety Officer (or other nominated person) will provide advice / guidance / training to individuals as required.

Training – Governors

Governors should take part in online safety training / awareness sessions, with particular importance for those who are members of any subcommittee / group involved in technology / online safety / health and safety /safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation.
- Participation in school training / information sessions for staff or parents (this may include attendance at assemblies / lessons).

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and students instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and students need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate students about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Consent on student starting school from parents or carers will be obtained before photographs of students are published on the school website / social media / local press
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that students are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Students must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include students will be selected carefully and will comply with good practice guidance on the use of such images.

- Students' full names will not be used anywhere on a website or blog, particularly in association with photographs.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The school must ensure that:

- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.
- All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".
- It has a Data Protection Policy.
- It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)
- Risk assessments are carried out.
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained
- There are clear and understood policies and routines for the deletion and disposal of data
- There are clear policies about the use of cloud storage / cloud computing which ensure that such data transfer / storage meets the requirements laid down by the Information Commissioner's Office.

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.

- Use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- the data must be encrypted and password protected
- the device must be password protected
- the device must offer approved virus and malware checking software
- the data must be securely deleted from the device once it has been transferred or its use is complete

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

	Staff & other adults				Students			
Communication Technologies	Allowed	Allowed at certain times	Allowed for selected staff	Not Allowed	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission
Mobile phones may be brought to the school	X	X			X			
Use of mobile phones in lessons					X			
Use of mobile phones in social time					X			
Taking photos on mobile phones / cameras					X			
Use of other mobile devices e.g. tablets, gaming devices								X
Use of personal email addresses in school , or on school network								X
Use of school email for personal emails				X	X			

Use of messaging apps				X	X			
Use of social media			X		X			
Use of blogs			X					X

When using communication technologies the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff and students should therefore use only the school email service to communicate with others when in school, or on school systems.
- Users must immediately report, to the nominated person – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and students or parents / carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Students should be taught about online safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Email

Email is used by all staff and students, the only email system that should be used for communication to do with Christ the King should be the email account provided by the school. Should parents wish to contact the school via email they should direct their emails to reception@ctk.lancs.sch.uk, who will then pass this on to the relevant member of staff as soon as possible. Staff and students should not use personal email accounts during school hours or for professional purposes.

Each individual is responsible for the emails that are sent from their email account. All emails sent should be appropriate and be in polite manner. Students should not use emails to communicate with bodies or persons outside of Christ the King unless a member of staff has given permission to do so, as you are representing the school.

Any email sent using this account should not contain any bad language, negative references about other students/staff/the school or any material that can be deemed as threatening or inappropriate. Should students receive any email of this nature this should be reported to the appropriate member of staff.

The school reserves the right to monitor, examine and delete any emails sent using the school email system.

As emails enter and leave the school network they are all scanned for SPAM/ Viruses, however please be vigilant when opening emails from unknown sources, should you be in doubt please seek advice from the ICT Support Team.

Good Practice

The following guidelines (some of which also apply to other forms of correspondence) tell you what is and what is not good practice when you use the Internet and email services.

Students & staff should:

- Check your email inbox for new messages regularly;
- Only use the school email system for official school business;
- Treat email as you would a letter, remember they can be forwarded / copied to others;
- Check the email message and think how the person may react to it before you send it;
- Make sure you use correct and up to date email addresses;
- File email when you have dealt with it and delete any items that you do not need to keep;
- Only email the recipient you wish to communicate with;
- Only use the approved, secure email system(s) for any school business.

You should not:

- Use email to message staff where face-to-face discussion is more appropriate;
- Create wide-distribution emails (for example, all staff) unless this form of communication is vital;
- Print out email messages you receive unless you need a hard copy;
- Insert and send large file attachments to emails to many addressees;
- Send an email that the person who receives it may think is a waste of resources;
- Use jargon, abbreviations or symbols if the person who receives the email may not understand them;
- Open any attachments or links if you don't know the person who has sent them;
- Use email as a public forum to express opinions or concerns;
- Click on any Internet advertisement banners.

Social Media - Protecting Professional Identity

All schools, academies and local authorities have a duty of care to provide a safe learning environment for students and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the *school* or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to students, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to students, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the *school* or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information

When official school social media accounts are established there should be:

- A process for approval by The Headteacher
- Clear processes for the administration and monitoring of these accounts – involving at least two members of staff
- Systems for reporting and dealing with abuse and misuse
- Understanding of how incidents may be dealt with under school disciplinary procedures

No Personal social media accounts should be used for school use.

Monitoring of Public Social Media

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
- The school should effectively respond to social media comments made by others according to a defined policy or process

The school's use of social media for professional purposes will be checked regularly to ensure compliance with the school policies.

Social Media Policy

Social media (e.g. Facebook, Twitter, LinkedIn) is a broad term for any kind of online platform which enables people to directly interact with each other. However some games, for example Minecraft or World of Warcraft and video sharing platforms such as You Tube have social media elements to them.

The school recognises the numerous benefits and opportunities which a social media presence offers. Staff, parents/carers and students are actively encouraged to find creative ways to use social media. However, there are some risks associated with social media use, especially around the issues of safeguarding, bullying and personal reputation. This policy aims to encourage the safe use of social media by *the school*, its staff, parents, carers and children.

Scope

This policy is subject to the school's Codes of Conduct and Acceptable Use Policy.

This policy:

- Applies to all staff and to all online communications which directly or indirectly, represent the school.
- Applies to such online communications posted at any time and from anywhere.
- Encourages the safe and responsible use of social media through training and education
- Defines the monitoring of public social media activity pertaining to the school

The school respects privacy and understands that staff and students may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are within the scope of this policy.

Personal communications are those made via personal social media accounts. In all cases, where a personal account is used it should not associate itself with the school or make reference to school business. Personal communications which do not refer to or impact upon the school are outside the scope of this policy.

Digital communications with students are also considered. Staff may use social media to communicate with learners via a school social media account for teaching and learning purposes but must consider whether this is appropriate and consider the potential implications and must seek the headteacher's permission.

Roles & Responsibilities

- **SLT**
    - Facilitating training and guidance on Social Media use.
    - Developing and implementing the Social Media policy
    - Taking a lead role in investigating any reported incidents.
    - Making an initial assessment when an incident is reported and involving appropriate staff and external agencies as required.
    - Receive completed applications for Social Media accounts
    - Approve account creation
- **IT Technical Team**
    - Create the account following SLT approval
    - Store account details, including passwords securely
    - Be involved in monitoring and contributing to the account
    - Control the process for managing an account after the lead staff member has left the organisation (closing or transferring)
- **Staff**
    - Know the contents of and ensure that any use of social media is carried out in line with this and other relevant policies
    - Attending appropriate training
    - Regularly monitoring, updating and managing content he/she has posted via school accounts

Process for creating new accounts

The school community is encouraged to consider if a social media account will help them in their work, e.g. a history department Twitter account, or a "Friends of the school" Facebook page. Anyone wishing to create such an account must present a business case to the School Leadership Team which covers the following points:-

- The aim of the account
- The intended audience
- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the SLT an application will be approved or rejected. In all cases, the SLT must be satisfied that anyone running a social media account on behalf of the school has read and understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the school, including volunteers or parents.

Monitoring

School accounts must be monitored regularly and frequently (preferably 7 days a week, including during holidays). Any comments, queries or complaints made through those accounts must be responded to within 24 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Regular monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a school social media account.

Behaviour

- The school requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.
- Digital communications by staff must be professional and respectful at all times and in accordance with this policy. Staff will not use social media to infringe on the rights and privacy of others or make ill-considered comments or judgments about staff. School social media accounts must not be used for personal gain. Staff must ensure that confidentiality is maintained on social media even after they leave the employment of the school.
- Users must declare who they are in social media posts or accounts. Anonymous posts are discouraged in relation to school activity.
- Unacceptable conduct, (e.g. defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the school and will be reported as soon as possible to a relevant senior member of staff, and escalated where appropriate.
- The use of social media by staff while at work may be monitored, in line with school policies. *The school does not permit access to private social media sites.*
- The school will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the school will deal with the matter internally. Where conduct is considered illegal, the school will report the matter to the police and other relevant external agencies, and may take action according to the disciplinary policy.

Legal considerations

- Users of social media should consider the copyright of the content they are sharing and, where necessary, should seek permission from the copyright holder before sharing.
- Users must ensure that their use of social media does not infringe upon relevant data protection laws, or breach confidentiality.

Handling abuse

- When acting on behalf of the school, handle offensive comments swiftly and with sensitivity.
- If a conversation turns and becomes offensive or unacceptable, school users should block, report or delete other users or their comments/posts and should inform the audience exactly why the action was taken
- If you feel that you or someone else is subject to abuse by colleagues through use of a social networking site, then this action must be reported using the agreed school protocols.

Tone

The tone of content published on social media should be appropriate to the audience, whilst retaining appropriate levels of professional standards. Key words to consider when composing messages are:

- Engaging
- Conversational
- Informative
- Friendly (on certain platforms, e.g. Facebook)

Use of images

School use of images can be assumed to be acceptable, providing the following guidelines are strictly adhered to.

- Permission to use any photos or video recordings should be sought in line with the school's policy. If anyone, for any reason, asks not to be filmed or photographed then their wishes should be respected.
- Under no circumstances should staff share or upload student pictures online other than via school owned social media accounts
- Staff should exercise their professional judgement about whether an image is appropriate to share on school social media accounts. Students should be

appropriately dressed, not be subject to ridicule and must not be on any school list of children whose images must not be published.

- If a member of staff inadvertently takes a compromising picture which could be misconstrued or misused, they must delete it immediately.

Personal use

- **Staff**
  - A personal account should not associate itself with the school.
  - Personal communications which do not refer to or impact upon the school are outside the scope of this policy.
  - Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
  - *The school does not permit access to private social media sites in school.*
  - Staff are not permitted to follow or engage with current or former students (under the age of 18) of the school on any personal social media network account
- **Students**
  - Staff are not permitted to follow or engage with current or former students (under the age of 18) of the school on any personal social media network account.
  - The school's education programme should enable the students to be safe and responsible users of social media.
  - Students are encouraged to comment or post appropriately about the school. Any offensive or inappropriate comments will be resolved by the use of the school's Behaviour Policy
- **Parents/Carers**
  - Parents/Carers are encouraged to comment or post appropriately about the school. In the event of any offensive or inappropriate comments being made, the school will ask the parent/carer to remove the post and invite them to discuss the issues in person. If necessary, refer parents to the school's complaints procedures.

Monitoring posts about the school

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school.
- The school should effectively respond to social media comments made by others according to a defined policy or process.

Managing your personal use of Social Media:

- “Nothing” on social media is truly private
- Social media can blur the lines between your professional and private life. Don’t use the school logo and/or branding on personal accounts
- Settings should be set at the highest privacy levels
- Keep an eye on your digital footprint
- Keep your personal information private
- Regularly review your connections – keep them to those you want to be connected to
- When posting online consider; Scale, Audience and Permanency of what you post
- If you want to criticise, do it politely.
- Take control of your images – do you want to be tagged in an image? What would children or parents say about you if they could see your images?
- Know how to report a problem

Managing school social media accounts

The Do’s

- Check with a senior leader before publishing content that may have controversial implications for the school
- Make it clear who is posting content
- Use an appropriate and professional tone
- Be respectful to all parties
- Ensure you have permission to ‘share’ other peoples’ materials and acknowledge the author
- Express opinions but do so in a balanced and measured manner
- Think before responding to comments and, when in doubt, get a second opinion
- Seek advice and report any mistakes using the school’s reporting process
- Consider turning off tagging people in images where possible
- Consider the appropriateness of content for any audience of school accounts

The Don’ts

- Don’t make comments, post content or link to materials that will bring the school into disrepute
- Do not express personal views
- Don’t publish confidential or commercially sensitive material
- Don’t breach copyright, data protection or other relevant legislation
- Don’t link to, embed or add potentially inappropriate content
- Don’t post derogatory, defamatory, offensive, harassing or discriminatory content
- Don’t use social media to air internal grievances

Schools Technical Security – Equipment / Infrastructure, Passwords, Filtering & Monitoring

Introduction

Effective technical security depends not only on technical measures, but also on appropriate policies and procedures and on good user education and training. The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that:

- users can only access data to which they have right of access
- no user should be able to access another's files (other than that allowed for monitoring purposes within the school's policies).
- access to personal data is securely controlled in line with the school's personal data policy
- logs are maintained of access by users and of their actions while users of the system
- there is effective guidance and training for users
- there are regular reviews and audits of the safety and security of school computer systems
- there is oversight from senior leaders and these have impact on policy and practice.

Responsibilities

The management of technical security will be the responsibility of the Network Manager but with members of the school being aware of their own responsibilities.

Overview

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people receive guidance and training and will be effective in carrying out their responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school technical systems
- An appropriate system is in place for users to report any actual / potential technical incident to the Online Safety Officer or ICT support team.
- Responsibilities for the management of technical security are clearly assigned to appropriate and well trained staff.

- An agreed policy is in place for the provision of temporary access of “guests” (eg trainee teachers, supply teachers, visitors) onto the school systems.
- Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Infrastructure

- Servers, wireless systems and cabling must be securely located and physical access restricted
- Appropriate security measures are in place to protect the servers, firewalls, switches, routers, wireless systems, work stations, mobile devices etc. from accidental or malicious attempts which might threaten the security of the school systems and data.
- The Network Manager is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- Mobile device security and management procedures are in place
- The school infrastructure and individual workstations are protected by up to date software to protect against malicious threats from viruses, worms, trojans etc
- No hardware or software should be installed onto a computer system without the prior consent of the Network Manager. Any installation of hardware or software without consent could result in the item being removed and action being taken under the terms of the School’s disciplinary procedure.
- The installation of any file sharing software is strictly prohibited.
- An agreed policy is in place regarding the use of removable media (eg memory sticks / CDs / DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Password Security

A safe and secure username / password system is essential if the above is to be established and will apply to all school technical systems, including networks, devices, email and Virtual Learning Environment (VLE).

Password Statements

- All users will have clearly defined access rights to school technical systems and devices.
- All school networks and systems will be protected by secure passwords that are regularly changed
- The “master / administrator” passwords for the school systems, used by the technical staff must also be available to the Headteacher or other nominated senior leader and kept in a secure place eg school safe.

- All users (adults and young people) will have responsibility for the security of their username and password must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security. Users are responsible for the security of their username & Password.
- Passwords for new users, and replacement passwords for existing users will be allocated by the schools technical team.
- Where passwords are set / changed manually requests for password changes should be authenticated by (the responsible person) to ensure that the new password can only be passed to the genuine user

Staff Passwords - guidance

- All staff users will be provided with a username and password by the technical team who / which will keep an up to date record of users and their usernames.
- the password should be a minimum of 6 characters long and must include three of – uppercase character, lowercase character, number, special characters
- must not include proper names or any other personal information about the user that might be known by others
- passwords shall not be displayed on screen, and shall be securely hashed (use of one-way encryption)
- passwords should be different for different accounts, to ensure that other systems are not put at risk if one is compromised and should be different for systems used inside and outside of school
- should be changed at least every 60 to 90 days
- should not re-used for 6 months and be significantly different from previous passwords created by the same user. The last four passwords cannot be re-used.

Student Passwords

- All users will be provided with a username and password by the technical team who / which will keep an up to date record of users and their usernames.
- Students will be taught the importance of password security

Training / Awareness

Members of staff will be made aware of the school's password policy:

- at induction
- through the school's Online Safety Policy and password security policy
- through the Acceptable Use Policy

Students will be made aware of the school's password policy:

- in lessons
- through the Acceptable Use Policy

Filtering & Monitoring

The filtering of internet content provides an important means of preventing users from accessing material that is illegal or is inappropriate in an educational context. The filtering system cannot, however, provide a 100% guarantee that it will do so, because the content on the web changes dynamically and new technologies are constantly being developed. It is important, therefore, to understand that filtering is only one element in a larger strategy for online safety and acceptable use. It is important that the school has a filtering policy to manage the associated risks and to provide preventative measures which are relevant to the situation in this school.

Responsibilities

The responsibility for the management of the school's filtering policy will be held by the Network Manager. They will manage the school filtering, in line with this policy and will keep records / logs of changes and of breaches of the filtering systems.

To ensure that there is a system of checks and balances and to protect those responsible, changes to the school filtering service must:

- be logged in change control logs

All users have a responsibility to report immediately to the appropriate member of staff any infringements of the school's filtering policy of which they become aware or any sites that are accessed, which they believe should have been filtered.

Users must not attempt to use any programmes or software that might allow them to bypass the filtering / security systems in place to prevent access to such materials.

Internet access is filtered for all users. Differentiated internet access is available for staff and customised filtering changes are managed by the school. Illegal content is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list and other illegal content lists. Filter content lists are regularly updated and internet use is logged and frequently monitored. The monitoring process alerts the school to breaches of the filtering policy, which are then acted upon. There is a clear route for reporting and managing changes to the filtering system. Where personal mobile devices are allowed internet access through the school network, filtering will be applied that is consistent with school practice.

- The school manages its own filtering service
- The school has provided differentiated user-level filtering. (Allowing different filtering levels for different ages / stages and different groups of users – staff / students etc.)

- In the event of the technical staff needing to switch off the filtering for any reason, or for any user, this must be logged and carried out by a process that is agreed by the Headteacher.
- Mobile devices that access the school internet connection (whether school or personal devices) will be subject to the same filtering standards as other devices on the school systems
- Any filtering issues should be reported immediately to the IT Technical team.
- Requests from staff for sites to be removed from the filtered list will be considered by the technical staff
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.
- Internet filtering should ensure that children are safe from terrorist and extremist material when accessing the internet.
- Remote management tools are used by staff to control workstations and view users activity

Education / Training / Awareness

Students will be made aware of the importance of filtering systems through the online safety education programme. They will also be warned of the consequences of attempting to subvert the filtering system.

Staff users will be made aware of the filtering systems through:

- the Acceptable Use Policy
- induction training
- staff meetings, briefings, Inset.

Parents will be informed of the school's filtering policy through the Acceptable Use Policy and through online safety awareness sessions / newsletter / Social Media / Website.

- any audit / reporting system

Users who gain access to, or have knowledge of others being able to access, sites which they feel should be filtered (or unfiltered) should report this in the first instance to the IT Technical team who will decide whether to make school level changes (as above).

Monitoring

No filtering system can guarantee 100% protection against access to unsuitable sites. The school will therefore monitor the activities of users on the school network and on school equipment as indicated in the School Online Safety Policy and the Acceptable Use Agreement.

The filtering policy will be reviewed in the response to the evidence provided by the audit logs of the suitability of the current provision

The school uses various monitoring software to monitor the use of its computer systems. The two primary methods of monitoring are Internet monitoring and screen monitoring.

Internet monitoring involves logs being kept of all Internet sites visited. Screen monitoring involves a live feed of a computers monitor being watched or recorded from a remote location.

Users should be aware that personal information could be viewed/obtained while screen monitoring software is in use. For example in the case of online banking; usernames and accounts information. Staff are advised not to use their school laptop or the school's computers for this kind of personal Internet use as the school cannot be held responsible for any loss incurred.

Further Guidance

Schools in England (and Wales) are required *"to ensure children are safe from terrorist and extremist material when accessing the internet in school, including by establishing appropriate levels of filtering"* (Revised Prevent Duty Guidance: for England and Wales, 2015).

Furthermore the Department for Education published proposed changes to 'Keeping Children Safe in Education' for consultation in December 2015. Amongst the proposed changes, schools will be obligated to *"ensure appropriate filters and appropriate monitoring systems are in place. Children should not be able to access harmful or inappropriate material from the school or colleges IT system"* however, schools will need to *"be careful that "over blocking" does not lead to unreasonable restrictions as to what children can be taught with regards to online teaching and safeguarding."*

In response UKSIC produced guidance on – information on "Appropriate Filtering"

NEN Technical guidance: http://www.nen.gov.uk/e-security-managing-and-maintaining-e-securitycyber-security-in-schools/

Mobile Technologies (including BYOD/BYOT)

Mobile technology devices may be school owned/provided or personally owned and might include: smartphone, tablet, notebook / laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school's learning platform and other cloud based services such as email and data storage.

All users should understand that the primary purpose of the use mobile / personal devices in a school context is educational. The mobile technologies policy should be consistent with and

inter-related to other relevant school polices including but not limited to the Safeguarding Policy, Behaviour Policy, Bullying Policy, Acceptable Use Policy, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's online safety education programme.

Mobile devices that are brought into school such as smart phones can be used to access the unfiltered internet therefore cannot be monitored. As a result of this personal mobile devices (phones, cameras, mp3 players, game consoles) are not allowed in school. However, e-readers with pre-downloaded content are allowed with prior permission and signed parental consent regarding liability.

Any handheld devices used to access the data on the school system such as download emails by staff to smartphones is allowed provided the phone has relevant security measures in place such as encryption to prevent a breach in data protection should these devices be lost or stolen. Staff should not store any types of media related to students on their personal devices. Students should ask permission if they wish to use their own personal device. The school is not liable to support any personal devices.

Student Use of Personal Devices

- If a student breaches the school policy then the phone or device will be confiscated and will be held in a secure place in the school office. Mobile phones and devices will be released to parents/carers in accordance with the school policy. If the device has been used to record or store images of students/staff without their consent, the school reserves the right to remove all of the material before it is returned.
- Personal devices (eg Mobiles, tablets and smartwatches) must not be taken into examinations. Students found in possession of these devices during an exam will be reported to the appropriate examining body. This may result in the student's withdrawal from either that examination or all examinations.
- If a student needs to contact his/her parents/carers they will be allowed to use a school phone. Parents are advised not to contact their child via their mobile phone during the school day, but to contact the school office.
- Students should protect their phone numbers by only giving them to trusted friends/adults and family members. Students will be instructed in safe and appropriate use of mobile phones and personal devices and will be made aware of boundaries and consequences.

Any laptops issued to students are the responsibility of the student and the parents/carers where the parent should enforce the online safety Policy taught at school. Students and parents will have been notified about the correct policy and procedures at the time of issue of the laptop.

- The school Acceptable Use Policies for staff, students and parents/carers will give consideration to the use of mobile technologies
- The school allows:

	School Devices			Personal Devices		
	School owned for single user	**School owned for multiple users**	**Authorised device[1]**	**Student owned**	**Staff owned**	**Visitor owned**
Allowed in school	*Yes*	*Yes*	*Yes*	*No*	*Yes*	*Yes*
Full network access	*Yes*	*Yes*	*Yes*	*No*	*No*	*No*
Internet only				*No*	*Yes*	*Yes*
No network access				*No*	*No*	*No*

Backups

Staff are responsible for backing up their own data files. The recommended media for this is a USB pen or a writeable CD/DVD. However staff need to protect sensitive information when backing up their data;

Those data files that are stored in the My Documents folder on your laptop and network logon are backed up on a daily basis. Recovery of lost data files may be possible from these backups but this is not guaranteed. A backup is taken every holiday period and stored onsite in a secure location for at least a year. Daily backups are also taken which have a life span of up to 4 weeks before they are overwritten.

Files stored outside of the My Documents (i.e. on the desktop) area are not backed up.

Data stored on Removable devices such as Pen drives should be used for transferring data only and not to be used as primary storage as these devices can be un-reliable.

Cloud Services Policy

The school provides access to certain cloud services. Cloud services means services made available to users on demand via the Internet from a cloud computing provider's servers as opposed to being provided from a company's own on-premises servers. Prior to rolling out the use of any cloud service the school needs to investigate the company that is storing the data the decision to move anything to the cloud is the responsibility of the Head teacher.

All cloud services implement by the school should comply with all 8 principles of the DPA. Whilst data may be stored and controlled in the cloud by a supplier, responsibility for all areas of data protection compliance still rests with the school.

[1] Authorised device – purchased by the pupil/family with permission from SLT.

The DFE guidelines should be followed when investigating cloud services these can be found here.

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/368034/Cloud-services-software-dept-advice-oct-2014.pdf

Microsoft Office 365

Office 365 is used in school for the email system, staff must observe the email guidelines below. Microsoft states that following:

- You are the owner of the data; Microsoft is the custodian or the processor of your data
- It's your data, so if you ever choose to leave the service, you can take your data with you
- We do not mine your data for advertising purposes
- If a government approaches us for access to customer data, we redirect the inquiry to you, the customer, whenever possible and have and will challenge in court any invalid legal demand that prohibits disclosure of a government request for customer data
- Our service is verified to meet requirements specified in ISO 27001, EU model clauses, HIPAA BAA, and FISMA
- Office 365 is consistent with the DPA
- Microsoft will store data our UK customers provide through use of Microsoft's cloud services in our European data centres in Ireland and the Netherlands.

For up to date information regarding office 365 please refer to the trust centre:

http://office.microsoft.com/en-gb/business/office-365-trust-center-cloud-computing-security-FX103030390.aspx

Google Apps for Education

Google apps for education is used in school for storing non confidential data in cloud using Google drive, it also allows us to access collaboration apps in the future.

- Data that is transferred to Google is encrypted at several levels.
- Google Apps and Google Cloud Platform are certified for SSAE 16/ISAE 3402 Type II, received the SOC2 audit and the ISO 27001 certification. This means that an independent auditor has examined the controls protecting the data in Google Apps (including logical security, privacy and data center security) and assured that these controls are in place and operating effectively.
- Google provides capabilities and contractual commitments created to meet data protection recommendations provided by the Article 29 Working Party. It is a participant in the U.S.-EU Safe Harbor Framework. Along with independent third-party audits of our data protection practices and our ISO 27001 certification, these provide our customers with several compliance options to address EU data protection regulations.
    - Safe Harbour Link: http://export.gov/safeharbor/eu/eg_main_018475.asp

- The European Commission's Data Protection Directive is an important piece of privacy legislation passed by the European Union (EU) in 1995. It restricts the movement of data from the EU to non-EU countries that do not meet the EU's "adequacy" standard for privacy protection. Processing personal data strictly within the EU is one means of compliance with the Directive. Other means of compliance don't require data location within the EU, such as participation in the U.S.-EU Safe Harbor Framework or the use of European Commission-approved model contract clauses.

For up to date information regarding google apps for education please see Goos Trust information:

https://support.google.com/googleforwork/answer/6057301?rd=1

You agree to the following when using cloud services:

- You accept once an item is deleted it may not be able to be retrieved.
- Google drive only allows the restoration of files up to 28 days from deletion.
- You accept once you delete an email in office 365 in remains in your deleted items for 365 days.
- You accept that once you delete an email in office 365 from your deleted items you have 14 days to restore it.
- You agree not store any confidential or sensitive information in any cloud service.
- You agree not to use any cloud service provided by the school for personal purposes such as email subscriptions, banking, online purchases, insurance and personal file storage ie photos and videos.
- You agree not to store any malicious code or data in the cloud that could harm the schools network in any way.
- You agree not to use any other cloud service on the schools other than those outlined in this document such as drop box.
- You agree not to download photos of students from cloud storage onto a personal owned device.
- You will not store Images\videos of students if they haven't had permission from parents \ carer
- You agree not use any other cloud services other than those provided by school.

Failure to comply with any of these will result in following the schools disciplinary procedure. The school reserves the right to implement other cloud services when required and to adjust the acceptable use policy without prior consultation.

Incidents

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see "User Actions" above).

Unsuitable / inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

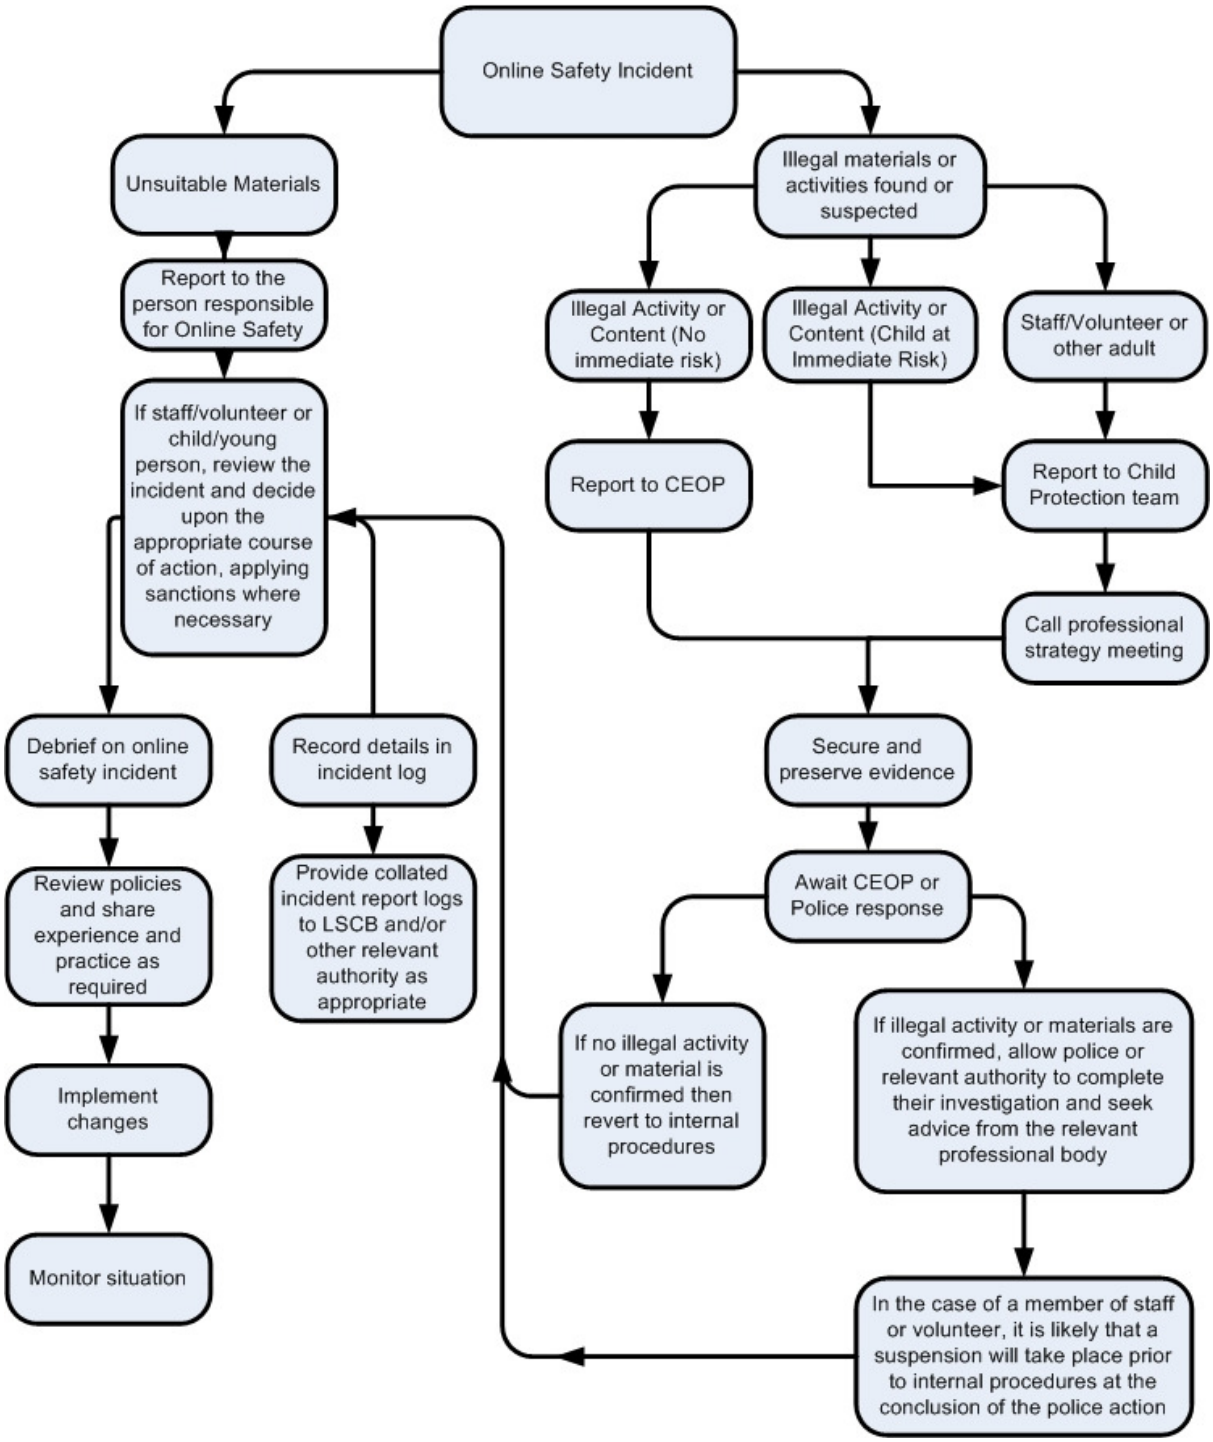
The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in / or outside the school when using school equipment or systems. The school policy restricts usage as follows:

User Actions		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	X
	Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	

Using school systems to run a private business				X	
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school				X	
Infringing copyright				X	
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)				X	
Creating or propagating computer viruses or other harmful files				X	
Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X	
On-line gaming (educational)	X				
On-line gaming (non-educational)		X			
On-line gambling				X	
On-line shopping / commerce		X			
File sharing	X				
Use of social media			X		
Use of messaging apps			X		
Use of video broadcasting e.g. Youtube			X		

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.



Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
    - Internal response or discipline procedures
    - Involvement by Local Authority or national / local organisation (as relevant).
    - Police involvement and/or action
- If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:
    - incidents of ‘grooming’ behaviour
    - the sending of obscene materials to a child
    - adult material which potentially breaches the Obscene Publications Act
    - criminally racist material
    - promotion of terrorism or extremism
    - other criminal conduct, activity or materials
- Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.

It is important that all of the above steps are taken as they will provide an evidence trail for the *school* and possibly the police and demonstrate that visits to these sites were carried out for

safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School Actions & Sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows:

	Actions / Sanctions									
Students Incidents	Refer to class teacher / tutor	Refer to Head of Department / Year / other	Refer to Headteacher	Refer to Police	Refer to technical support staff for action re filtering / security etc.	Inform parents / carers	Removal of network / internet access rights	Warning		Further sanction eg detention / exclusion
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).		X	X		X					
Unauthorised use of non-educational sites during lessons	X							X		X
Unauthorised / inappropriate use of mobile phone / digital camera / other mobile device		X								X
Unauthorised / inappropriate use of social media / messaging apps / personal email		X			X			X		X
Unauthorised downloading or uploading of files	X	X			X					
Allowing others to access school network by sharing username and passwords		X								X
Attempting to access or accessing the school network, using another student's / pupil's account										X

Attempting to access or accessing the school network, using the account of a member of staff		X	X			X				X
Corrupting or destroying the data of other users			X							X
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X		X							X
Continued infringements of the above, following previous warnings or sanctions		X	X							
Actions which could bring the school into disrepute or breach the integrity of the ethos of the school		X	X							
Using proxy sites or other means to subvert the school's filtering system			X		X					X
Accidentally accessing offensive or pornographic material and failing to report the incident			X		X					
Deliberately accessing or trying to access offensive or pornographic material		X	X					X		X
Receipt or transmission of material that infringes the copyright of another person or infringes the Data Protection Act			X							

Electronic Devices - Searching & Deletion

Introduction

The changing face of information technologies and ever increasing student use of these technologies has meant that the Education Acts have had to change in an attempt to keep pace. Within Part 2 of the Education Act 2011 (Discipline) there have been changes to the powers afforded to schools by statute to search students in order to maintain discipline and ensure safety. Schools are required to ensure they have updated policies which take these changes into account. No such policy can on its own guarantee that the school will not face legal challenge, but having a robust policy which takes account of the Act and applying it in practice will however help to provide the school with justification for what it does.

The particular changes we deal with here are the added power to search for items 'banned under the school rules' and the power to 'delete data' stored on seized electronic devices.

Items banned under the school rules are determined and publicised by the Headteacher (section 89 Education and Inspections Act 1996). These include all electronic devices.

The act allows authorised persons to examine data on electronic devices if they think there is a good reason to do so. In determining a 'good reason' to examine or erase the data or files the authorised staff member must reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or could break the school rules.

Following an examination, if the person has decided to return the device to the owner, or to retain or dispose of it, they may erase any data or files, if they think there is a good reason to do so.

Responsibilities

The Headteacher is responsible for ensuring that the school policies reflect the requirements contained within the relevant legislation. The formulation of these policies may be delegated to other individuals or groups. The policies will normally be taken to Governors for approval. The Headteacher will need to authorise those staff who are allowed to carry out searches.

The Headteacher has authorised the following members of staff to carry out searches for and of electronic devices and the deletion of data / files on those devices as long as there are 2 members of staff present.

- The Head teacher
- Safeguarding Officers
- SLT
- Head of House

Training / Awareness

Members of staff should be made aware of the school's policy on "Electronic devices – searching and deletion":

- at induction
- at regular updating sessions on the school's online safety policy

Members of staff authorised by the Headteacher to carry out searches for and of electronic devices and to access and delete data / files from those devices should receive training that is specific and relevant to this role.

Specific training is required for those staff who may need to judge whether material that is accessed is inappropriate or illegal.

Search:

Students are not allowed to bring mobile phones or other personal electronic devices to school or use them in the school. Authorised staff (defined in the responsibilities section above) have

the right to search for such electronic devices where they reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or break the school rules.

- Searching with consent - Authorised staff may search with the pupil's consent for any item
- Searching without consent - Authorised staff may only search without the pupil's consent for anything which is either 'prohibited' (as defined in Section 550AA of the Education Act 1996) or appears in the school rules as an item which is banned and may be searched for

In carrying out the search:

The authorised member of staff must have reasonable grounds for suspecting that a *student* is in possession of a prohibited item i.e. an item banned by the school rules and which can be searched for.

The authorised member of staff should take reasonable steps to check the ownership of the mobile phone / personal electronic device before carrying out a search.

The authorised member of staff should take care that, where possible, searches should not take place in public places e.g. an occupied classroom, which might be considered as exploiting the student being searched.

The authorised member of staff carrying out the search must be the same gender as the *student* being searched; and there must be a witness (also a staff member) and, if at all possible, they too should be the same gender as the *student* being searched.

There is a limited exception to this rule: Authorised staff can carry out a search of a *student / pupil* of the opposite gender including without a witness present, but only where you reasonably believe that there is a risk that serious harm will be caused to a person if you do not conduct the search immediately and where it is not reasonably practicable to summon another member of staff.

Extent of the search:

The person conducting the search may not require the *student* to remove any clothing other than outer clothing.

Outer clothing means clothing that is not worn next to the skin or immediately over a garment that is being worn as underwear (outer clothing includes hats; shoes; boots; coat; blazer; jacket; gloves and scarves).

'Possessions' means any goods over which the *student* has or appears to have control – this includes desks, lockers and bags.

A student's possessions can only be searched in the presence of the *student* and another member of staff, except where there is a risk that serious harm will be caused to a person if the search is not conducted immediately and where it is not reasonably practicable to summon another member of staff.

The power to search without consent enables a personal search, involving removal of outer clothing and searching of pockets; but not an intimate search going further than that, which only a person with more extensive powers (e.g. a police officer) can do.

Use of Force – force cannot be used to search without consent for items banned under the school rules regardless of whether the rules say an item can be searched for.

Electronic devices

An authorised member of staff finding an electronic device may access and examine any data or files on the device if they think there is a good reason to do so.

The examination of the data / files on the device should go only as far as is reasonably necessary to establish the facts of the incident. Any further intrusive examination of personal data may leave the school open to legal challenge. It is important that authorised staff should have training and sufficient knowledge of electronic devices and data storage.

If inappropriate material is found on the device it is up to the authorised member of staff to decide whether they should delete that material, retain it as evidence (of a criminal offence or a breach of school discipline) or whether the material is of such seriousness that it requires the involvement of the police. Examples of illegal activity would include:

- child sexual abuse images (including images of one child held by another child)
- adult material which potentially breaches the Obscene Publications Act
- criminally racist material
- other criminal conduct, activity or materials

Members of staff may require support in judging whether the material is inappropriate or illegal. One or more Senior Leaders should receive additional training to assist with these decisions. Care should be taken not to delete material that might be required in a potential criminal investigation.

The school should also consider their duty of care responsibility in relation to those staff who may access disturbing images or other inappropriate material whilst undertaking a search. Seeing such material can be most upsetting. There should be arrangements in place to support such staff. The school may wish to add further detail about these arrangements.

Deletion of Data

Following an examination of an electronic device, if the authorised member of staff has decided to return the device to the owner, or to retain or dispose of it, they may erase any data or files, if they think there is a good reason to do so.

If inappropriate material is found on the device, it is up to the authorised member of staff to decide whether they should delete that material, retain it as evidence (of a possible criminal offence or a breach of school discipline) or whether the material is of such seriousness that it requires the involvement of the police.

A record should be kept of the reasons for the deletion of data / files

Audit / Monitoring / Reporting / Review

The Safeguarding Team will ensure that full records are kept of incidents involving the searching for and of mobile phones and electronic devices and the deletion of data / files.

These records will be reviewed by the safeguarding team and Online Safety Governor) at regular intervals (Termly).

This policy will be reviewed by the head teacher and governors annually and in response to changes in guidance and evidence gained from the records.

Legislation

Schools should be aware of the legislative framework under which this Online Safety Policy template and guidance has been produced. It is important to note that in general terms an action that is illegal if committed offline is also illegal if committed online.

It is recommended that legal advice is sought in the advent of an e safety issue or situation.

Computer Misuse Act 1990

This Act makes it an offence to:

- Erase or amend data or programs without authority;
- Obtain unauthorised access to a computer;
- “Eavesdrop” on a computer;
- Make unauthorised use of computer time or facilities;
- Maliciously corrupt or erase data or programs;
- Deny access to authorised users.

Data Protection Act 1998

This protects the rights and privacy of individual's data. To comply with the law, information about individuals must be collected and used fairly, stored safely and securely and not disclosed to any third party unlawfully. The Act states that person data must be:

- Fairly and lawfully processed.
- Processed for limited purposes.
- Adequate, relevant and not excessive.
- Accurate.
- Not kept longer than necessary.
- Processed in accordance with the data subject's rights.
- Secure.
- Not transferred to other countries without adequate protection.

Freedom of Information Act 2000

The Freedom of Information Act gives individuals the right to request information held by public authorities. All public authorities and companies wholly owned by public authorities have obligations under the Freedom of Information Act. When responding to requests, they have to follow a number of set procedures.

Communications Act 2003

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

Malicious Communications Act 1988

It is an offence to send an indecent, offensive, or threatening letter, electronic communication or other article to another person.

Regulation of Investigatory Powers Act 2000

It is an offence for any person to intentionally and without lawful authority intercept any communication. Monitoring or keeping a record of any form of electronic communications is permitted, in order to:

- Establish the facts;
- Ascertain compliance with regulatory or self-regulatory practices or procedures;
- Demonstrate standards, which are or ought to be achieved by persons using the system;
- Investigate or detect unauthorised use of the communications system;
- Prevent or detect crime or in the interests of national security;

- Ensure the effective operation of the system.
- Monitoring but not recording is also permissible in order to:
- Ascertain whether the communication is business or personal;
- Protect or support help line staff.
- The school reserves the right to monitor its systems and communications in line with its rights under this act.

Trade Marks Act 1994

This provides protection for Registered Trade Marks, which can be any symbol (words, shapes or images) that are associated with a particular set of goods or services. Registered Trade Marks must not be used without permission. This can also arise from using a Mark that is confusingly similar to an existing Mark.

Copyright, Designs and Patents Act 1988

It is an offence to copy all, or a substantial part of a copyright work. There are, however, certain limited user permissions, such as fair dealing, which means under certain circumstances permission is not needed to copy small amounts for non-commercial research or private study. The Act also provides for Moral Rights, whereby authors can sue if their name is not included in a work they wrote, or if the work has been amended in such a way as to impugn their reputation. Copyright covers materials in print and electronic form, and includes words, images, and sounds, moving images, TV broadcasts and other media (e.g. youtube).

Telecommunications Act 1984

It is an offence to send a message or other matter that is grossly offensive or of an indecent, obscene or menacing character. It is also an offence to send a message that is intended to cause annoyance, inconvenience or needless anxiety to another that the sender knows to be false.

Criminal Justice & Public Order Act 1994

This defines a criminal offence of intentional harassment, which covers all forms of harassment, including sexual. A person is guilty of an offence if, with intent to cause a person harassment, alarm or distress, they:

- Use threatening, abusive or insulting words or behaviour, or disorderly behaviour; or
- Display any writing, sign or other visible representation, which is threatening, abusive or insulting, thereby causing that or another person harassment, alarm or distress.

Racial and Religious Hatred Act 2006

This Act makes it a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening.

Other laws already protect people from threats based on their race, nationality or ethnic background.

Protection from Harrassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other. A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Protection of Children Act 1978

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is a anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison

Sexual Offences Act 2003

A grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. (Typically, teachers, social workers, health professionals, connexions staff fall in this category of trust). Any sexual intercourse with a child under the age of 13 commits the offence of rape.

Public Order Act 1986

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence. Children, Families and Education Directorate page 38 April 2007.

Obscene Publications Act 1959 and 1964

Publishing an “obscene” article is a criminal offence. Publishing includes electronic transmission.

Human Rights Act 1998

This does not deal with any particular issue specifically or any discrete subject area within the law. It is a type of “higher law”, affecting all other laws. In the school context, human rights to be aware of include:

- The right to a fair trial
- The right to respect for private and family life, home and correspondence
- Freedom of thought, conscience and religion
- Freedom of expression
- Freedom of assembly
- Prohibition of discrimination
- The right to education

These rights are not absolute. The school is obliged to respect these rights and freedoms, balancing them against those rights, duties and obligations, which arise from other relevant legislation.

The Education and Inspections Act 2006

Empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of students when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

The Education and Inspections Act 2011

Extended the powers included in the 2006 Act and gave permission for Headteachers (and nominated staff) to search for electronic devices. It also provides powers to search for data on those devices and to delete data. http://www.education.gov.uk/schools/pupilsupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation)

The Protection of Freedoms Act 2012

Requires schools to seek permission from a parent / carer to use Biometric systems

The School Information Regulations 2012

Requires schools to publish certain information on its website:

https://www.gov.uk/guidance/what-maintained-schools-must-publish-online

Serious Crime Act 2015

Introduced new offence of sexual communication with a child. Also created new offences and orders around gang crime (including CSE)

Appendices

Student Acceptable Use Policy

School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Agreement is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and will have good access to digital technologies to enhance their learning and will, in return, expect the *students* to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:

- I understand that the *school* will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure – I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc)
- If I arrange to meet people off-line that I have communicated with on-line, I will do so in a public place and take an adult with me.
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line.

I understand that everyone has equal rights to use technology as a resource and:

- I understand that the *school* systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.

- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not use the *school* systems or devices for on-line gaming, on-line gambling, internet shopping, file sharing, or video broadcasting (eg YouTube), unless I have permission of a member of staff to do so.
- I will not create / use personal hotspots in school

I will act as I expect others to act toward me:

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the *school*:

- I will only use my own personal devices (mobile phones / USB devices etc) in school if I have permission. I understand that, if I do use my own devices in the *school*, I will follow the rules set out in this agreement, in the same way as if I was using school equipment.
- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person / organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)

- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the *school* also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information).
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I will be subject to disciplinary action.

Please complete the sections on the next page to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices.

Current Year Group:…….

Student Acceptable Use Policy Form

This form relates to the student Acceptable Use Agreement, to which it is attached.

Please complete the sections below to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement and have familiarised yourself with the Online Safety Policy found on our school website. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own devices in the school (when allowed) e.g. mobile phones, gaming devices USB devices, cameras, etc.
- I use my own equipment out of the school in a way that is related to me being a member of this school eg communicating with other members of the school, accessing school email, VLE, website, etc.

Name of Student: .....

Signed: .....

Date: .....

Parent / Carer Countersignature

I have read and understood the school's Acceptable Use Policy & Online Safety Policy (available on request from Reception or on our Website) and give permission for my son/daughter to access the Internet. I understand that the school will take all reasonable precautions to ensure students cannot access inappropriate materials. I understand that the school cannot be held responsible for the nature or content of materials accessed through the Internet. I agree that the school is not liable for any damages arising from use of the Internet facilities.

Staff (and Volunteer) Acceptable Use Policy

School Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools / academies and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for *students* learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way in accordance with the schools online safety policy, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that students receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the *school* will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school. (schools should amend this

section in the light of their policies which relate to the personal use, by staff and volunteers, of school systems)

- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using *school* ICT systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (eg on the school website / VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with students and parents / carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school:

- When I use my mobile devices (laptops / tablets / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. I will also follow any additional rules set by the school about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school ICT systems
- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted , or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try

to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.

- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless permission has been given by the network manager.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted. Paper based Protected and Restricted data must be held in lockable storage.
- I understand that data protection policy requires that any staff or student data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of the *school*:

- I understand that this Acceptable Use Policy applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school.
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines and have familiarised myself with the Online Safety Policy on Firefly or the school website.

Staff / Volunteer Name: .....

Acceptable Use Agreement for Community Users

This Acceptable Use Agreement is intended to ensure:

- that community users of school digital technologies will be responsible users and stay safe while using these systems and devices
- that school systems, devices and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that users are protected from potential risk in their use of these systems and devices

Acceptable Use Agreement

I understand that I must use school systems and devices in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems, devices and other users. This agreement will also apply to any personal devices that I bring into the school:

- I understand that my use of school systems and devices and digital communications will be monitored
- I will familiarise myself with the Online Safety Policy
- I will not use a personal device that I have brought into school for any activity that would be inappropriate in a school setting.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.
- I will not access, copy, remove or otherwise alter any other user's files, without permission.
- I will ensure that if I take and / or publish images of others I will only do so with their permission. I will not use my personal equipment to record these images, without permission. If images are published it will not be possible to identify by name, or other personal information, those who are featured.

- I will not publish or share any information I have obtained whilst in the school on any personal website, social networking site or through any other means, unless I have permission from the school.
- I will not, without permission, make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a school device, nor will I try to alter computer settings, unless I have permission to do so.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).
- I understand that if I fail to comply with this Acceptable Use Agreement, the school has the right to remove my access to school systems / devices

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.
